### FARCICAL FOOTBALL CAROLINE HILL

### "B" Defeat China

A handful of spectators at Caroline Hill gesterday witnessed 70 minutes of farcical football when South China "A" Champions of the Sonior League lost their last game of the season to South China "B" by two goals to one.

The champions, with the exception of Ip Pak-wah, Lau tau-man and Fok Yiu-wah, fielded a team of second and third Division players, and Ip, their "star" left-winger, was seen in between the sticks! The "B" team was practically at full strength: Cheung Moon-wing kept goal instead of Cheung Wing-choi and Kwok Ying-ki led the attack in place of Chan Tak-fal.

#### MY LITTLE CHICKADEE

There was a time when W. C. Fields couldn't think of even one good word to say for a bunch of tough Philadelphia kids. But today he sings their praises.

Those kids, Fields declares, were responsible in a measure, for his 42 years of achievement as an actor. They used to pick fights with him constantly—with Bill invariably taking & beating. But those beatings were the cause of Fields' enlarged proboscis. And that nose has had a lot to do with his success, which reaches new hights in Universal's "My Little Chickadee." showing today at the King's. Fields stars with Mae West in this picture.

### Increase Of Taxation Unavoidable

#### COMPANY DIVIDENDS TO BE LIMITED

The following is a continuation of the Budget speech by Sir John Simon, Chancellor of the Exchequer, the first portion of the speech was published in our issue of yesterday:-

LONDON, Apr. 24 (Reuter).—Continuing his Budget speech. Sir John Simon, Chancellor of the Exchequer then dealt with the question of how much would be provided by the continuance of the existing taxes at the existing level.

The yield of death duties was estimated at £85,000,000. and stamp duties at £19,000,000 National Defence contributions and the Excess Profit tax, which are alternatives, were estimated to yield £70,000,000.

If there were no Excess Profits tax, they could look for a yield of £28,000,000 from National Defence contributions.

For motor vehicle duties, he estimated revenue at £35,000.00. Sir John then dealt with Post Office revenue and disclosed that it had been decided to take the Post Office revenue into the Exchequer.

The machinery operating in the Excess Profits tax was being made more efficient, but it must not be Imagined that the changes involved constituted merely a list of concessions to tax-payers. They did not. There would be consideration for concerns belonging to dea pressed industries.

In view of the war conditions they must postpone the general revaluation of properties for assessment for income tax which otherwise should have been made

this year. Sir John also proposed an amendment of the legislation to deal with certain forms of estate duty avoidance.

#### CUSTOMS AND EXCISE

In regard" to Customs and Excise. Sir John proposed to introduce legislation on two points:

tartar and all unashitary accumulations are also removed. Your plates regain their wholesome, flesh-pink colour. Dull, yellow-tinged teeth are made clean and lustrous. A powerful sterilising agent purifies your plates and leaves a refreshing taste. No brushing. No acids. Absolutely harmless to denture materials.

## Denounced By Japan

#### ALLIED VICTORY PREDICTED

CONDON, April 24 (Havas)-Confidence of the ultimate victory of the Allies was expressed by Viscount Hisakira Kano, Manager of the London branch of the Yokohama Specie Bank,

"I think the turning in favour of the Allies came around Easter. This movement has already begun and is still going

Mr. Kano added that pro-Allied feeling is growing immensely, especially since the Allies sent help to Norway. "As for Hitler's adventure in Norway I can see little to commend that. The consequences of its failure would be most serious for him," he concluded.

#### Egypt Remains Firm Friend

LONDON, Apr. 24 (Reuter)-The debate on Monday in the Egyptian Chamber of Deputies on foreign affairs has been received with considerable interest in London where the point that is noted specially is the firmness of spirit of Egypt in the cause of the democracies.

As the Egyptian Premier pointed out, as soon as the war was declared, Egypt at once carried out her obligations under the Treaty of Friendship with the Allies, standing by them,

She was simply demonstrating the real spirit of all Egypt. One Deputy said that in the present struggle, Egypt should not be content merely to stand by. She should also bring her influence to bear on all Eastern Moslem countries so that they, too, should support the Allies.

The cause of the Allies is the cause of all Egypt.

Another Deputy said that even If Egypt had not been required to stand by the Allies through the Treaty, she would still have done

#### ESTHONIA ACTION AGAINST REDS

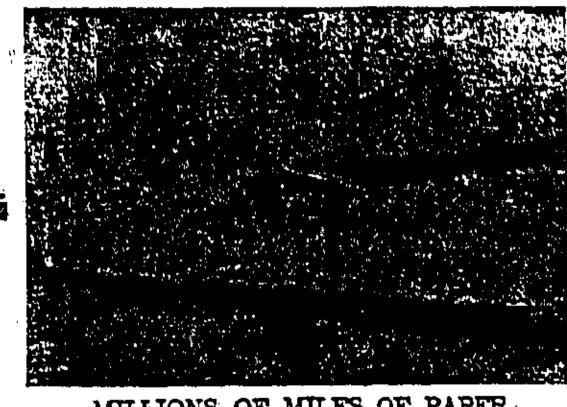

TALLINN. April 24 (Havas)-Despite the close political ties linking Esthonia and the Soviet, the Esthonian police have arrested many Communists engaged in Communist propaganda, including the distribution of pamphlets calling the population to establish

a Communist regime. Strangely enough, according to press reports, the arrests were made with the consent of the Soviet Government.

#### CHINESE ACTIVE

PINYANG, April 24 (Central)— Japanese troops on the Nanning-Yamchow highway have been subjected to constant raids by the Chinese. As a result of Chinese attacks, the Japanese at Pingkut, Taitong, Natiu Lungtau and other points along the highway have been driven off. Increasing Chinese pressure is exerted upon Fongshing. Areas to the west of Fongshing have been cleared of Japanese.

#### A STAGGERING BUDGET

EXCHEQUER presented the British public on Tuesday with a staggering budget—his second war-time account, which will naturally call for greater sacrifices on the part of every individual. Sir John Simon has budgetted for an expenditure of over £2,500,-000,000—a colossal sum which must be expended to achieve the British war aims. The Chancellor, in his able presentation of these figures to Parliament, outlined how it was proposed to meet this expenditure. Extra taxation was, of course, to be expected, but the manner of its levying will not bear too heavily upon ports. the taxpayer. As far as possible these extra taxes will fall on luxuries and even the working man's beer and tobacco has to be so regarded when the Empire is striving to ensure that his independence and freedom shall be preserved for - all Through this "extra taxawhich also includes an increase in the rate swedish territorial waters." of Income Tax, the British Treasury is assured of securing nearly fifty per cent. of sweepers. the huge sum needed to complete and carry on the war efforts of the nation. # WARNING

#### FALSE ALARM AT DOVER

LONDON, April 11 (By Air. Mail)-While the King was inspecting military units at Dover yesterday, a false air raid warning, which lasted three minutes, was sounded. The Queen was also in Kent at the time visiting the London Scottish, her own regiment.

WARNING GIVEN The raid warning was given while the King was driving from Fone barracks to another with Field

Marshal Lord B!rdwood. As they stepped from the car to the parade ground the commanding officer hurriedly told the King that a warning was progress. Almost at once, however,

the "all clear" was given. When the warning was sounded fighter aircraft went up, troops in the barracks took cover and A. R. P. squads went on duty.

COSTABLE'S GATE The King was received at Constable's Gate of Dover Castle by the Marquess of Willingdon, Lord Warden of the Cinque Ports, When his Majesty passed through the gate he was the first reigning king!

STOCKHOLM, Apr. 24 (Reuter) — According to reports here, British troops are in action in at least four sectors of Norway. At some points, north of Trondheim, the British and Germans are reported to be within 200 yards of each other.

The reports add that the Germans momentarily hold the command there as the Allies apparently lack anti-aircraft guns and fighter planes.

It is claimed that despite constant air raids no damage was done to the British defence positions although the Headquarters had to be moved twice.

#### THE ONE BLOCKADE THAT HAS COMPLETELY FAILED

LONDON, Apr. 24 (Reuter)-In Budapest, the Magyar Nemzet, discussing the anti-British propaganda that Britain is degenerate and will go the way of Rome and Byzantlum, seeks to prove that objectively Britain has always fought for her own aims and ideals with her own methods and means.

"A people may be good fighters without being professional militarists," says the paper. A longdistance runner may be an equally good athlete as a sprinter.

In the New York Herald-Tribune, Walter Lippman, the famous columnist, points out that the hold-up for Hitler in Scandinavia has caused a "change in the diplomatic weather" to Hitler's disad-

#### "BOLD AND REALISTIC" BUDGET APPROVED Indication Of Britain's Financial Strength

LONDON, Apr. 24 (Reuter)—An unflinching readiness to accept the proposed new burdens cheerfully since they are necessary to ensure victory. That is the general reaction of the Press towards the Budget. One paper, indeed —the Manchester Guardian—even says that the Budget is less drastic than the situation warrants.

The new Purchase Tax and increased postage arouse the misgivings of one or two papers. The Daily Telegraph declares that the Budget is certain to make a strong appeal to the public as an imaginative effort to grapple with a tremendous problem.

### WAR BUDGET

Continued From Page 4

Sir John Simon thanked the French Government for agreeing to waive their treaty fights and permit the increase to apply to French and other imported spirits. The increased duty on spirits, which was to take effect from tomorrow, would yield £7,000,000 for a full year and £6,500,000 for this year.

#### SEVERE INCREASE

The tobacco duty would be increased from tomorrow by 4s, per pound or 3d. "an ounce with corresponding increases in other duties such as on cigars.

This increase following the two increases last year was severe but in the existing financial circumstances there was no escape from this addition.

The increased yield from the extra tobacco duty, he estimated at £23,000,000 for a full year and £21,000,000 for this year.

With regard to matches it was proposed to double the excise duties and make corresponding additions to customs auties.

A box of fifty matches now costing a penny would cost 11d. These proposals, which would take effect from April 29, would produce this year rather more than £3,500,000 and in a full year £4,000,000.

There would be countervailing increases in duties on mechanical lighters.

#### POSTAL RATES

Regarding the post office charge the general "scheme was to increase certain initial postal charges but to leave all charges for excess weight untouched.

The initial rates for Inland would be increased as follows ·

For letters to two ounces from 13d to 24d.

For postcards from 1d to 2d. For printed papers by "ld. per pačket. For newspapers by id

There would be similar increases for letters and postcards in the Imperial Post except that the present rates would be retained for correspondence with the forces overseas. `. "

The rates for Foreign Post will increase as follows: .

For letters from 23d, to 3d. For postcards from 11d, to 2d,

Neither in the Imperial nor Foreign Post were any increases proposed for other classes of mail in view of the importance of those services to the export trade

#### AIR MAIL UNAFFECTED There would be no. increased

charges in air mail.

It was also proposed to make some changes in poundage charge

All these postal enanges would produce this year £10,400,000 and in a full year would produce £11,400,000.

inland telephone service there would be a general increase of 15 per cent, on all charges to subscribers with exchange facilities and to users of telephones with coin boxes.

This was to take effect from May 1 in the case of trunk calls and all calls from public call offices and from July 1 in the case of rentals and miscellaneous charges

For private telephone services there would be an increase of 25 per cent to take effect from July

Inland telephone charges were estimated to produce this year just over £2,000,000 and in a full year £2.850,000.

#### THE TELEGRAPH SERVICES

In the inland telegraph service there would be a fixed additional charge of 3d. on each ordinary priority or greetings telegram on each night telegraph letters and on each page of press telegrams

There would also be an increase of 25 per cent for private telegraph services to operate from

These increases in inland telegraph services were estimated to yield £160,000 this year and £240,000 in a full year.

No increases were proposed in charges for overseas telegraph and telephone services which were necessarily limited in war time. taken together, were estimated to yield £12.500,000 this

LONDON, Apr. 24 (Reuter)-Mr. C. R. Attlee, Leader of the Labour Opposition, speaking on the Budget in the House of Commons, said that he approved of the taxes on beer, spirits, tobacco, and matches but thought that the Postal Tax will not bring in a great deal of money, and would irritate asvast number of people. He was glad Sir John Simon favoured voluntary against com-

nothing stood in the way of na-

tional saving so much as a means

Sir Archibald Sinclair, Leader of the Liberal Opposition, paid a tribute to Sir John's clear exposition of the Budget problems and said that he could not complain that the proposals were too drastic. He declared Germany this year was spending £2,300. 000,000 on the war and the French people was making a vastly greater effort than Sir John had asked of us today.

He concluded that the figures that the Chancellor had given the House were clear and eloquent proof of the power and greatness of our resources, and the House's determined and humorous reception of the proposals testified to the high spirit and firm purpose of a united Britain, resolved on

[will be paid at the stage when the wholesaler is selling to the retailer. One great advantage in applying the tax at this point is that it makes it" easy to secure that there shall be no purchase tax imposed in respect of the goods for export."

#### INEVITABLE STEP

Concluding, Sir John emphasised that the total of £1,234,000,000 which he was seeking to get from revenue this year was the largest. figure ever drawn from taxation in 12 months in the history of British finance, and yet it was inevitable, when the total expenditure mounted at the pace set by modern warfare, that taxes should entirely keep in step with it,

We were bound this year, according to his calculations, to contemplate an expenditure of at least £850,000,000 more than the preceding year.

He was drawing £185,000,000 more from taxation.

SAVING MUST INCREASE What was the conclusion? The saving and lending or savings to the State must be proportionately increased.

""It is an essential part of our war purpose that this should be achieved. Provided that the persistence of our people in supporting the present loans and the resolution of our people in paying the Government taxes is maintained, we have nothing to fear, Our financial front will hold as firmly as any other front in the fight for victory." (Cheers)

#### STRENUOUS DRIVE

"There is a strenuous drive under the President of the Board of Trade," continued Sir John. "to increase our exports.

"At the same time it is necessary to discourage unnecessary spending at home.

"The purchase tax won't touch the raw material in industry. "Another exception is that there will be no purchase tax on food including drink or foodstuffs whether for human or animal

consumption "There will also be no purchase tax in articles already subject, toheavy duty as tobacco or petrol or in respect of services such as fuel gas, electricity or water

"Subsequent legislation will pro-Vide for the date and imposition of the tax and the rate at which it will be applied to be determined by a resolution made in the House of Commons."

#### EXTRA YIELD

The yield of extra taxation in total £101,000,000 ... To that must be added £1,113,-

#### SECURING PRICES

Whatever measures would help to restrict the misuse of spending power and especially the misuse of increasing spending power were of vital importance. It had been their policy

secure the price of essential foodstufis in rationed quantities even though this involved considerable cost to the Exchequer.

They were now spending £60. 000,000 a year to cheapen prices in certain essential foodstuffs. Control has been taken over of

control of foreign exchange. Dealing with the excess profits tax, Sir John said that the profits lose a great deal of their cellor's appeal value if they were distributed freely as dividends.

# RECORD YEAR

### Shares Approved At Meeting

Although the Macao Electric Lighting Co., Ltd., recorded a net profit of \$323,861.80 for 1939, the chairman, Mr. F. J. Gellion, indicated at the Company's 29th annual general meeting yesterday that they will not be able to operate this year under such favourable exchange and supply contracts, and that there is no doubt that the operating costs will be increased due to the European situation which has brought about an increase in the costs of all supplies needed for their working purposes. It was decided to pay a dividend of \$1.50 per share and a bonus of 50 cts. per share.

The chairman was supported by Messrs. N. G. Beale, Fuk Tot iam, and H. N. da Silva (directors) while Mr. G. G. N. Tinson, represented the secretaries. Messrs. Johnson Stokes and Masters.

Also, to pay to the Government of Macao 5 per cent. on the amount distributed as dividend, according to Art. 15 of our Concessionary Contract, which amounts to \$9,000. To transfer to the general reserve account the sum of \$150,000; and to carry forward to this year \$120,243.52.

. A RECORD YEAR

The year under review was a record one for the Company, the total kilowatt-hours sold increased by almost 40 per cent. over previous year, and the number consumers increased by about 18 per cent.

The Company's Plant and Equipment has continued to be satisfactory in every way and has been maintained in good state.

The business, so far this year has increased somewhat compared with the corresponding period of last year, but we will not be able to operate this year under such fayourable exchange and supply contracts as we did during 1939.

Turning to the financial side of the balance sheet, our overdraft has been considerably reduced and our cash position has also improved.

The report and accounts were duly adopted.

Mr. Fu Tak-lam had joined the Board at the beginning of the year, and his election was confirmed and Mr. F. J. Gellion was re-elected as a Director.

Messrs. Lowe, Bingham and Matthews were re-elected auditors.

#### FATAL PLUNGE

Continued From Page 1 could have been stopped from going

through it and into the sea.

BODIES FOUND Traffic-Sergeant G. Fryer said that the body of Mr. Nechaeff was

found lying on the floor of the car under the "steering wheel, while that of Mr. Roberts was jammed in the off-side door, partly through the window. Mr. W. H. E. Coates, Assistant

Manager of the B. A. T., said that the company held a reception marking the opening of a new premises of the company.

"There was no question of Mr. Roberts being drunk at all or even under the influence of drink" said wicness.

#### PERFECTLY SOBER

Mr. E. Davis, who was also at the reception, testified that Mr. Roberts was perfectly sober at the time he took the wheel,

Mr. G. Stafford-Smith, former manager and director of the B. A. T., who was one of the passengers in the car, and had a miraculous escape/ said that following the reception, the party was proceeding to the Hongkong Hotel to keep a lunch engagement. Mr. Roberts was at the wheel wimess next to him, while Mr Nechaeff was at the extreme end in the front seat. In the rear were Mrs. Roberts, Mrs. Davis and Mr. Cathrew Mr. Roberts was perfectly sober at the time and had plenty of room to manoeuvre at the wheel,

#### NOTICED OBJECT

"When we got near Luard Road" I noticed some object started to run across the road towards the sea wall and, at the same time, Mr. Roberts suddenly swered to the right Returning from that swerve, he swerved too much to the left. Then coming back into the straight, he wen; into a very bad skid and went off to the right again. The last skid brought the car straight into the water."

'The speed of the car, witness continued was between 25 and 30 m.p.h. When the car skidded, he realised the gravity and watched Mr. Roberts' face. He saw Mr. Roberts was intent to clear the

"As the vehicle went into the water he turned to open the rear right door. As the vehicle went over the edge I was thrown forward into the windscreen and received a slight bump in the forehead. The car nose dived into the water.

CLIMBED OVER SEAT "Before being submerged, and after having been thrown forward. I immediately recovered myself. turned round and climbed over the seat into the rear of the car with the idea of opening the right-hand door for the back seat passengers to escape.

"Eventually I came to the surface of the water and I was pulled on to the sampan. I then saw Mrs. Roberts and Mrs. Davis appear and, after that, Mr. Cathrew." said witness.

Mr. Nechaeff was also thrown against the windscreen and had a bigger knock on the forehead

"It was only a matter of seconds when the car sank to the bed of the harbour."

Mrs. E. M. Davis, who was sitting in the rear of the car, said she did not see anything running arcoss the road just prior to the skid. She was quite sure that Mr. Roberts"was not travelling too fast "The first thing I remember was trying to reach for the door, the

next going through an opening and, the last, being pulled up."

#### EYE-WITNESS

An eye-witness of the accident, Li Ping-yau, boatman, who was standing outside the Nagasaki Beer Hall, said that when the car was in mid-air, just before plunging into the water, he saw an arm bushing open the right door. He immediately called for help and his son, L! On jumped into the water in an attempt to save the passengers.

Sergt. T. McInnes, Inspector of Vehicles, said he examined the car on the morning of Mar. 19. It was Plymouth Salcon and was in good condition. He removed all the wheels and found that the brakes and brake-drums were in good order. The steering gear appeared to be normal.

The two near-side door handles were missing and the doors on that side could only be opened from the inside.

One of the front tyres was good while the other was three-quarters worn. The two rear tyres were smooth.

#### UNCOMMON THING

It was quite an uncommon thing in a car for one of the tyres to be bigger than the remaining three he said, and if the car should skid it would be difficult to keep the vehicle under control.

the car could travel safely at a littles.
